

AUGUST ADVOCACY IS ACTION

Advocacy is Action is NAFCC's annual campaign mobilizing family child care educators, allies, and advocates to drive real policy change during the Congressional recess. Beginning August 11, 2025, educators across the country will rise in unified action to protect and strengthen the future of family child care.

This year's campaign comes at a turning point. Family child care continues to be squeezed out of the system, despite being the backbone of early care in rural, multilingual, and underserved communities. With nearly 100,000 FCC programs lost since 2012, and more closures looming, the stakes are higher than ever.
