

FCC Family Adventure Week

Play, Learn and Grow

 March 30 - April 6 2025

FCC Adventure Week: Play, Learn, and Grow is a week of fun-filled celebrations that connect families and FCC providers. Children will engage in hands-on activities designed to inspire growth, exploration, and quality care in line with NAFCC Quality Standards.

FCC Adventure Week: Play, Learn, and Grow is about the power of play—a child's natural way of discovering the world and building connections. Through imaginative play, children develop problem-solving skills, foster creativity, enhance language, and strengthen their critical thinking abilities.

FCC Adventure Week: Play, Learn, and Grow highlights the essential role of play-based learning in early childhood development, offering families and providers a chance to connect, learn, and celebrate the joy of play.
